E.O. 12958: N/A
TAGS: [TBIO](#) [KSCA](#) [AS](#)
SUBJECT: SHORTAGE OF MEDICAL ISOTOPES - REQUEST FOR
CLARIFICATION

REF: A. A) STATE 135295
[1](#)B. B) ALBRIGHT-CLARKE EMAIL OF JANUARY 15

[1](#)1. (SBU) Embassy Canberra contacted the Canadian Embassy in Canberra January 6 (following Canadian Embassy's reopening following its New Years holiday closure) to discuss reftel request for a joint approach to the GOA concerning the shortage of medical isotopes. The Canadian diplomat said she had not heard about this request, and although helpful, said she would have to contact Ottawa before we could take action.

[1](#)2. (SBU) On January 16, she called econoff and said that the demarche hasn't been "signed off" within the Canadian government. She indicated that the GOC was working with "Washington counterparts" on how and when any approach should be done.

[1](#)3. (SBU) Action request: Post requests Department and/or HHS confirm whether reftel demarche is still operative. Further details such as the timing of a possible "strategic dialogue" among the U.S., Canada, and others would also be useful. POC in Canberra is Wendell Albright, email albrightwi@state.gov
